Net price: **2 500,00 PLN**

Gross price: **3 075,00 PLN**

We produce typhlographic plans (typhloplans) and typhlographic maps (typhlomap).

They are designed for blind and visually impaired people.

Multi-sensory maps allow blind people to independently navigate the building layout, and the Braille script also allows blind people to read the information contained on the plan.

We produce typhlographic plans in any color, but always with high-contrast graphics to ensure visually impaired people see more clearly.

Materials for typhloplans:

Steel, Plexiglas, Dibond, ABS, aluminum.

Metal, transparent, black, or white Braille beads.

The standard map size is 600 x 400 mm for a facade or stand.

The box price is for a 600 x 400 mm map for a facade.

Send us an inquiry regarding the required dimensions of the board and whether it should be wall-mounted or free-standing, indoors or outdoors.
