The HI-TECH system is a system of information boards and plaques.

With this system, we can build a single-column, two-column, or three-column information board.

The content can be permanently printed or removable.

Main panel 1440 x 200 mm with logo and name

This panel is used when building a two-column board.

Tenant information boards mounted on steel cables.

The board is constructed of 5 mm thick acrylic glass panels.

The graphics are digitally printed on the back of the panel and adhered to the entire surface with a frosted foil that imitates the grain of the glass.

The mounting brackets are made of anodized aluminum, and the entire unit is suspended on steel cables.

Board standard: SINGLE COLUMN

Top panel for logos, names, etc. 700 x 120 mm

Bottom panels for tenants: 700 x 80 mm

Each panel has system brackets attached to the sides.

Top brackets x 2 pcs.

Bottom brackets x 2 pcs.

The brackets are adjustable: the board can be hung on the façade or ceiling/floor.

The price in the box is for one 1440 x 200 mm panel with graphics and side brackets for cable mounting.

In subsequent boxes, you will purchase 700 x 80 mm tenant panels and a system of brackets with cables.

Send us the design details by email. After purchasing the product, we will send you the graphic design for approval.
